Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

Claims 1-4 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Voss (US 4,867,230) in view of Waters et al. (US 3,726,021). The claims are reasonably and broadly construed, in light of the accompanying specification, as being disclosed by Voss, since each of the claimed elements are disclosed on the face of that reference. Voss discloses each of the claimed feature except for the claimed quick release connector. Waters, another drying device discloses that feature at column 3 line 58 through column 4 line 28. It would have been obvious to one skilled in the art to combine the features of Voss with the quick release connector of Waters for the purpose of releasably attach and detach a hose connector fitting in a drying device.

Claims 5-7 and 11-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Voss in view of Waters in further view of Schantz (US 4,145,821). Voss in view of Waters discloses the claimed invention, as rejected above, except for the claimed material composition. It would have been an obvious matter of design choice to provide the claimed material, since the teachings of Voss would perform the invention as claimed, regardless of the type of material. Furthermore, Voss in view of Waters discloses the claimed invention, except for the claimed wall or ceiling drying application. Schantz, another drying device, discloses that feature on the face of that reference. It would have been obvious to one skilled in the art to combine the teachings of Voss in view of Waters, with the wall or ceiling drying application as disclosed in Schantz, for the purpose of optimizing drying applications for various structures.

Response to Arguments

Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new grounds of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
